Are you a grad student / postdoc nearing the end of your training or a young professional seeking career guidance?

Would it help to connect with researchers in biotech / pharma / academia / consulting / law / scientific writing fields?
Consider joining us!

What is an AWIS Mentoring Circle?

- Mentoring Circles bring together mentors (mid-late stage STEM professionals) with mentees (early career STEM researchers) for a 9-month long, once a month meeting, to discuss and offer guidance on a wide range of topics, from careers in academia and industry to transitioning to careers away from the bench to seeking and maintaining a work-life balance.
- A mentoring circle consists of 1-2 mentors and 3-6 mentees. Last year we had more than 150 mentors and mentees matched in 24 circles.
- Many of our mentors have decades of experience in their respective fields and are an exceptional resource for young scientists.
